A Message from the Chief Scout

Looking back on 2023, it is clear that The Scout Association of Malta (SAM) had another solid year. We've made a positive impact on thousands of young people and their families. Thanks to the dedication of our Scout Groups, the Executive Committee, TSAM Ltd, and the National Scout Council, we've strengthened our programs and improved the way we work.

Our organisation has continued to thrive, and there is a long list of achievements which are documented in this report.

As time goes by, we are also expected to meet higher standards like GSAT and Safe from Harm. Meeting these expectations sometimes means moving out of our comfort zones and finding new ways to operate effectively. These challenges are part of our journey and will help us evolve.

The National Scout Council remained committed to building a strong culture of good governance at SAM. This means being open, accountable, and constantly improving. We have started refining our organisation's structure to ensure that it will be fit for the future challenges and growth we will inevitably face. A discussion that started in 2023 and continues to date.

We also wanted to encourage more young people to take on key leadership roles within SAM. We continue to believe that their voices and ideas will keep us connected to the needs and interests of our youth members. On the other hand, we acknowledged that the social trends today are increasingly affecting the availability of young people to dedicate time for leadership roles in scouting, and this led to ways of how we can rethink our rules to allow older, experienced leaders to continue to serve the organisation.

Finding a balance between the work of our volunteers and additional support from paid staff is another strategic challenge we worked on. The starting point was the employment of our first full time staff member - Elaine - whom we thank for her hard work and dedication. We continue to believe that volunteers remain at the heart of our core scouting program, but some roles could benefit from more staff members to ease the load and help us operate smoothly. Finding the right balance and the resources to achieve this is an ongoing discussion.

None of our successes would be possible without the dedication of our community. To everyone who supported SAM this year — our leaders, volunteers, and national supporters — thank you. You are the reason we can deliver quality scouting to so many.

A special thanks to our Leaders who bring our programs to life and to the parents and families who believe in our mission. And to all our scouts: keep embracing the values, lessons, and fun that scouting offers. You're at the heart of everything we do, and your growth is what makes TSAM's mission meaningful.

With your support, we're ready to face the future with confidence. Let's make the next year another successful one for our Association.

Kevin Camilleri | **Chief Scout**

Chief Commissioner's Overview

As I reflect on 2023, I am filled with pride for what we have accomplished as a community. This year has been a testament to our resilience, dedication, and the passion of every member who has contributed to our mission. Together, we have navigated challenges and celebrated significant milestones, reinforcing the values that define our Scouting movement.

The Training Department's Adult Resources section has been a cornerstone of our success. They have maintained the high standards of our Woodbadge and Pathfinder courses while expanding offerings to cater to the diverse interests of our members. This year, we welcomed 34 new Pathfinder graduates, alongside numerous others who completed various training courses. The introduction of initiatives like the Inclusion and Diversity seminar underscores our commitment to fostering a supportive and inclusive environment for all.

Our events calendar was vibrant in 2023, highlighted by the remarkable *Festa Scouts*, where thousands gathered to celebrate 115 years of Scouting in Malta. This event not only showcased our rich heritage but also engaged the public in meaningful activities that reflected our community spirit. For the first time, we live-streamed our Annual Rally, breaking down barriers to participation and allowing even those unable to attend in person to join in our celebrations.

The ICT Department has played a pivotal role in enhancing our operational capabilities. With the introduction of a new PA system and the hosting of multiple websites for our Scout groups, we are better equipped than ever to communicate and connect with our members. The development of online forms for training and international departments has streamlined processes, making it easier for our leaders to focus on what truly matters—supporting our youth.

Our Funding Department has been instrumental in securing financial support for our initiatives, ensuring that our programs and events are well-resourced. Their efforts allowed us to enhance our training offerings and organize impactful events like *Festa Scouts*.

In the realm of Youth Programme, we have made significant strides in enriching our programs to meet the needs and interests of our members. This focus on continuous improvement ensures that we are providing relevant and engaging experiences for our youth.

The Communication (PR) team has effectively raised our profile, promoting our activities and successes within the community. Their efforts in live-streaming events and engaging with the public have strengthened our connection to the wider community, fostering greater awareness and support for Scouting.

Our International Department has also played a vital role, connecting us with global Scouting initiatives and opportunities. Their work has broadened our members' horizons and facilitated exchanges that enhance our understanding of Scouting on an international scale.

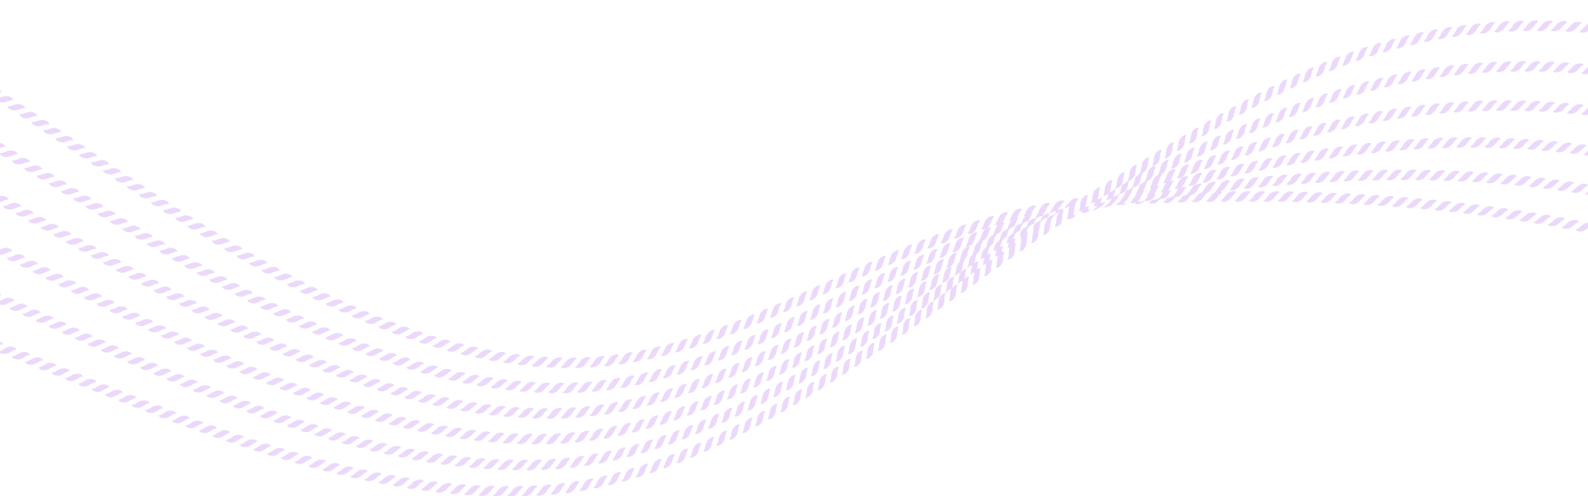

Chief Commissioner's Overview (continued)

This year also saw the introduction of two vital teams: the Safe from Harm Team, dedicated to addressing safety concerns, and the Group Support Team, which offers ongoing assistance to our Scout groups. These initiatives reflect our commitment to ensuring a safe and supportive environment for all members.

Looking ahead, it is essential to recognize that many of the challenges we face stem from interpersonal dynamics. I encourage all leaders to reflect on their motivations and ensure that we remain dedicated to Scouting for the right reasons. By fostering a spirit of collaboration and humility, we can strengthen our community and ensure that our focus remains on the growth and development of our youth.

In closing, I am grateful for the hard work and dedication of every member, leader, and volunteer who has contributed to our successes this year. Together, we will continue to inspire and empower the next generation of Scouts, building a brighter future for our community.

Anton Pisani | **Chief Commissioner**

Training Department

The year 2023 marked another successful and productive period for the Training Department's Adult Resources section. Building upon the achievements of the previous year, we continued to strengthen our training programs and expand our offerings to better serve our members.

We continued our tradition of delivering Woodbadge training courses, which remained highly sought after by our members. Responding to increased demand, we expanded our capacity by conducting two Pathfinder courses, a testament to the growing enthusiasm for our training initiatives.

We were delighted to welcome Josef Camilleri to the Adult Resources team, further bolstering our human resources. With the additions of Maria Catania and Kimberley Vella from the previous year, our team is now well-equipped to meet the evolving needs of our members and deliver a wider range of training opportunities.

In 2023, a total of 34 individuals successfully completed their Pathfinder training, with 37 completing the Basic course and 26 finishing the Advanced course. Additionally, we welcomed **127** participants who embarked on their journey with the Getting Started courses, highlighting the continued interest and engagement within our community.

This year, we introduced several new training initiatives to cater to the various interests and skill-sets of our members. Notably, we organized our first Inclusion and Diversity seminar, integrating essential topics such as Safe from Harm awareness. Furthermore, our ongoing Food Handling and First Aid courses continued to provide vital skills to our members. Additionally, we launched skills courses focusing on pioneering, orienteering & map reading, knife and axe handling, and backwoods cooking, providing opportunities for members to refine their outdoor skills.

With the successful addition of new training courses in 2023, our aim for 2024 is to maintain this varied range of offerings and continue tailoring our training programs to meet the evolving needs of our groups. We remain committed to supporting our members' growth and development while fostering a safe and inclusive environment within our scouting community.

The Adult Resources team looks forward to another year of collaboration, learning, and growth as we strive to empower our members with the skills and knowledge they need to thrive in their scouting journey.

Vanessa Mangion | **Training Commissioner**

International Department

Scout.org updating

The scout.org website has been updated with this years' final accounts and the minutes of the AGM. A copy of the census was published accordingly. The yearly membership fee paid was paid on time.

2027 World Scout Jamboree - Poland

In preparation for the upcoming World Scout Jamboree in Poland, two of our national staff members have been appointed to join the organisational committee. Daniel Catania (IT) and Mark O'Neill (Sustainability) are meeting regularly in Poland to set the stage for this important global event. We wish them the best of luck!

Agora 23 – Portugal

The Agora is an educational tool that uses the Scout Method to reach the educational objectives for the Rover age section and that has a special emphasis on youth empowerment. What makes an Agora so special is that it is an event run “for Rovers, by Rovers”. As a result, the event looks at issues that are of importance and relevant to young people in our society today. The 2023 edition was held in Portugal from 12th April to 16th April, with Janice Galea and Chloe Muscat representing Malta. Agora is an annual event that provides a valuable scouting experience to all participants. This year’s main topic was the Earth Tribe sustainability project.

IC Network meetings

In 2023, two IC network meetings were held, both of which we attended. The first took place in Belgium from 4th to 7th May, and the second in Budapest from 24th to 26th November. During the Belgium meeting, our IC was invited to lead a session on preparing a contingent for an international event. The November meeting in Budapest provided various opportunities to strengthen connections with other countries through the sharing of best practices and the creation of networking opportunities.

Train the Trainer Woodbadge Course

From 21st to 26th May, our Training Commissioner, Vanessa Mangion, successfully completed a Wood Badge Train-the-Trainer course at the magical Kandersteg Scout Centre in Switzerland. Such opportunities equip our staff with up-to-date knowledge to further enhance our leaders' training.

International Department (continued)

Kander 100

Kander 100 was a once-in-a-lifetime Jamboree for young people from around the world and it was the highlight of the KISC Centenary celebrations; a Jamboree bringing together Scouts and Guides from many countries and regions in the heart of the Swiss Alps. Kander 100 inspired, challenge, and educated young people through high adventure, international friendship, and sustainable development. The Jamboree took place over 12 days, from 27th July to 8th August 2023. 23

members coming from various scout groups attended this amazing event. Thumbs up to Sarah Galea for leading wisely this group. During this same event, Chloe Muscat was appointed by the European Region to carry out a sustainability workshop during one of the open events, while Martina Maria Grech served as an IST for the whole 3 weeks of the camp.

World Scout Jamboree – South Korea

Undoubtedly, the most significant event this year was the 25th World Scout Jamboree, held at a newly constructed campground in Saemangeum, Jeollabuk-do, South Korea, from 28th July to 18th August. A contingent of 75 members, led by Timmy Cutugno and David Grech from various local scout groups, joined over 43,000 other participants from 170 countries. Despite the organisers facing planning and execution issues, as well as heavy flooding and an intense heatwave, participants demonstrated resilience. On 8th August, the South Korean government, in cooperation with the World Organization of the Scout Movement, decided to evacuate attendees due to Typhoon Khanun. Following the evacuation, an improvised programme of cultural and historical site visits, along with pop music concerts, was arranged for the displaced participants across various regions in South Korea.

The closing ceremony was relocated to a football stadium in Seoul. During the post Jamboree, our contingent had the opportunity to visit interesting and historic places in the vicinity of Seoul. Much can be said about the experience gathered during the days in Korea. A Roller coaster of emotions and joys characterised by a huge “Festa” of World Scouting.

International Department (continued)

JOTA JOTI 2023

Over 1,000 members from 21 groups participated in this year's edition of JOTA-JOTI, organised by WOSM from 18th to 20th October. This is the world's largest digital Scout event, held on the Internet and airwaves, connecting millions of young people worldwide for a weekend of activities promoting friendship and global citizenship. JOTA-JOTI allows young people and volunteers to join fun and engaging group activities via the Internet and amateur radio, focusing on the development of 21st-century skills through Scouting.

The Academy 23

This year's edition of the Academy was held in Wiesbaden, Germany, from 14th to 19th November, with Sarah Galea representing us. As a member of the programme department, Sarah gained valuable insights during the event. Over the 5-day training, participants chose from four different learning paths and created personalised training plans by selecting from a variety of daily sessions tailored to their roles and needs. Sarah focused primarily on the programme, particularly the Cubs section, which is currently under review.

Edward Vella | **International Commissioner**

National Events

Throughout the year 2023, national events continued to prosper, greatly valued by the Association and esteemed by its members. The events department consistently sought to uphold high standards in every activity, resiliently overcoming setbacks and actively working to strengthen participation, thus fostering networking opportunities. The main national events of the year were as follows:

On Sunday 12th March 2023, more than 200 Ventures, Rovers and Leaders participated in another edition of the **national Scout trail**, with a mix of team-building activities along the way and an optional cook-out at the end. The trek consisted of a circular 8 km trek passing through the astonishing surroundings of il-Qarraba, Lippija & Ghajn Tuffieha Towers and the Roman Baths.

On Sunday 7th May, the yearly commemoration of Scouting and Guiding took place at Valletta. The **Annual Rally** started off with a mass at Floriana Parish Church and the parade followed passing through the streets of our capital city, where the acting President of Malta was also present to receive the salute. As expected, thousands of members participated in this event. For the first time ever, all the parade was live streamed on our social media platforms.

The pinnacle of events in 2023 was reached in the second weekend of October, when we brought our local Scout groups together to celebrate Scouting interactively with the public by organising **Festa Scouts** at Ghajn Tuffieha Scout Campsite. Through this project, the association aimed at raising the profile of Scouting in general and to celebrate the rich heritage of volunteer work and activities in the community. Thousands of Scouts from Beavers to Leaders, hailing from more than 30 Scout groups came together to celebrate 115 years of Scouting in Malta. This was truly a special occasion as we offered numerous Scouting-related activities, whilst the public attended enthusiastically and responded greatly. Some of the activities included: Abseiling, Obstacle Courses, Zipline, First Aid, Archery, Games, Pioneerering, Catapults, Human table Soccer & many more.

The motto of this event was once again 'Sharing our Adventure', whereas we provided a unique and free experience to a substantial number of people especially those with fewer opportunities, to understand the benefits of joining Scouting. We showcased that we are a youth movement which continuously strives for the development of our young people through non-formal education.

Other events included the **Youth Award Ceremony** at Zurrieq campsite on 14th January and two **social gatherings**: 4th July for national staff and 5th December for national staff and GSLs.

In the final quarter of 2023, the national events department commenced preparations for the events scheduled in 2024. Collaborating closely with various departments and entities, notably sectional commissioners, it was decided to organize one or more events for every section instead of focusing on only 1 or 2 sections per year. Subsequently, a comprehensive calendar of events was published.

Sean Bartolo | **National Events Commissioner**

National Events (continued)

National Events (continued)

National Events (continued)

Finance Department

Groups

The financial performance of the Groups in aggregate is robust and performing well with a 7.9% increase in Reserves driven by a surplus in Receipts of Payments of circa Euro282,000. Reserves add up to Euro2.8 million at year end of December 2023. These are represented in the form of Liquid Assets Euro1.4 million and Euro 1.4 million in value of premises.

We are monitoring the financial performance and when possible, supporting 3 groups that reported a deficit 2 years in a row. These are sometimes attributed to timing differences for reporting of Receipts and Payments. We will be trying to iron out these differences by adopting financial reporting standards with more discipline and support from IHQ.

During the year we continued to work with the banks to reduce our dependence on cash handling while using the banking service to the advantage of the association. Although these will come at a cost, we are seeking more cost-effective services. The benefits are a reduction in risks generally associated with cash handling and help improve the quality of the financial reporting.

IHQ Support

The principal source of income for the IHQ is the Census Income charged to Members and the income from the Shop. The Income of the International, Events and Training and Programme Departments is primarily aimed at covering their costs and being the least possible burden on IHQ.

The reserves held by IHQ are just under Euro1Million. Cash Reserves reported at year end were around Euro346,000, however circa half were held or committed for specific events or commitments. The assets include a receivable of circa Euro500,000 without a fixed repayment schedule.

The surplus for the year dropped compared to the previous year, however reserves remain generally appropriate to support the regular operations of the association. However, plans the association is working on may place pressure on cashflow. It will therefore be essential to ensure sufficient funding is secured to fund additional projects and activities.

Mark Galea | **Finance Commissioner**

Funding Department

The Funding Commission is meant to coordinate and support Groups in tapping funding opportunities. Such opportunities vary in scale, format and also in nature. Most schemes preferred by local groups, are the National Funded Initiatives, such as the A4U or BeActive and then there are those regional schemes such as Gozo or Majjistral Funding Scheme.

Apart from national funded schemes, there is also the opportunity to apply for EU Funded Schemes such as the European Solidarity Fund and International Scheme emanating either from WOSM, Commonwealth or even the United Nations.

It is also a fact, that most Groups do tend to refrain from submitting project proposals due to their complexity or lack of information. To this effect, in 2021 the Informal Funding Network was established wherein each group was invited to nominate one representative and an alternate. Throughout these meeting, participants would be provided with expert advice and information on upcoming opportunities. So far, three of these meetings have been held and it is envisaged their frequency will increase due to new opportunities and interests arising from the Groups.

Communication is vital to secure a high success rates in submission. Whenever a group comes up with a proposal, it is important that the GSL approves and submit a draft copy of application, prior to deadline to the Funding Commissioner. This is then vetted for any possible revision and sent back to the Group. Once the group, agrees with the proposed changes, then sent it back to the Funding Commissioner who shall present it to the Chief Commissioner and Hon Secretary for the necessary endorsement.

Sometimes, there are Schemes open to one VO Registered Organisation only. Given that TSAM has one VO number, the Funding Commission will invite all interested groups to jointly draft one application with different lots. This strategy ensures that no one is left behind.

As a concluding remark, the Funding Commission appeals to all GSLs to expose youngster in the drafting and implementation of projects for that they would eventually help them in their carriers. The Funding Commission would facilitate training in both project design and project implementation and shall continue to disseminate information both through email and through the informal funding network.

Brian Farrugia | **Funding Commissioner**

ICT Department

The ICT Department had an eventful and productive year in 2023. Here are some of the key highlights and achievements:

- **New PA System:** We successfully purchased a brand-new PA system, with most of the funding provided through A4U. This system will be primarily used at National Events, enhancing our audio capabilities significantly.
- **Annual Rally Live-Stream:** In collaboration with the Events Department, we coordinated and executed the first-ever Annual Rally live-streamed on social media. This initiative allowed wider participation and engagement from those who couldn't attend in person.
- **Website and Online Shop Maintenance:** Continuous efforts were made to maintain our official website (scouts.mt) and our online shop (shop.scouts.mt), ensuring they remain up-to-date and user-friendly.
- **Website Hosting:** We are currently hosting 10 WordPress websites for various scout groups, providing them with a reliable and efficient online presence.
- **Email Hosting:** Our department hosts email accounts on Microsoft for 21 Scout Groups, ensuring secure and professional communication channels.
- **Internet Package for Scout Groups:** We collaborated with GO to work on an internet package specifically for scout groups, benefiting at least 5 groups.
- **Mobile Package for Leaders:** Additionally, we worked with GO to create a mobile package exclusively for Scout Leaders, with around 40 leaders benefiting from this offer.
- **Online Forms for Training and International Departments:**
 - We developed an online form for the Training Team, allowing Training Advisors to submit assessment reports electronically. This new system saw at least 90 reports submitted in this manner.
 - Similarly, an online form was created for the International Department, with at least 25 responses collected through this digital platform.
- **Bulk Buy Addition:** We continued to expand our bulk buy option on the online shop, adding around 15 new leaders in 2023.

The ICT Department remains committed to leveraging technology to enhance our operations and support our scout groups and leaders effectively. We look forward to continuing these efforts and introducing more innovative solutions in the coming year.

Daniel Catania | **Asst. Administration Commissioner – ICT**

Malta Scout Fellowship

“Once a scout, always a scout” very much sums up what the Malta Scout Fellowship is all about. Established in October 1993 by a group of 10 former scout leaders, the Scout Fellowship brings together those individuals who have retired or stopped serving in some leadership role within the local Scout Association. The year 2023 saw the Fellowship celebrating its’ 30th Anniversary.

Since December 2022 of the 10 founding members of the Fellowship only Mr. Vincent Cassar still remains, a driving force within the Fellowship Executive Committee. Sadly, we lost Ms. Rose Loporto just after her 100th Birthday in November 2022. December also saw us lose another 2 members. Mr. Joseph Camilleri and Mr. Joseph Filletti.

Over the past 24 months a number of activities for the fellowship members were organized. These activities, held at intervals of between 2 to 3 months, were well attended.

During our cultural visits and dinners our members, former Scouts get to reminisce about the enjoyable days they spent when they were still active in their groups,

Today, they remember those days with nostalgia but still fall back to the friendships they made and the life skills they learnt when they were scouts.

Our yearly presence in the Annual Parade is one of the high lights for our members who can still take part.

At present the Malta Scout Fellowship has 36 members, and we were very happy to greet 4 new members in 2023.

The Malta Scout Fellowship still continues to strive to encourage past scouters to come and join our ranks. *We have a common goal and passion not to shut the door on our scouting experience but to use it and share it in a more flexible way that suits our present realities.*

May Cassar | **Scout Fellowship Honorary Secretary**
